The core of the **productivity design** below is the market principles. The market principles, by nature, are vertical by good, services, and software yet, surprisingly next to the absolute existence or God, are horizontally and accurately measured as a united whole system; globally, and over endless universes.

<b>Productivity design</b>	start Tokai Bank 1951	turn to niversity-life 1981 Emprof. Drs. April 2003				HonDL 30 April 2015				
macroeconomics		hyperbola, macro and micro				theory=practice=history				
microeconomics		hyperbola by industry				no assumption and ever sustainability				
international financing		hyperbola by corp production				no forerecasting; 100% probability				
management & financing	hyperbola productivity				causes=results, effective & efficient					
corporate accountifng	BEP curve balanced: static & dynamic and macro & micro				income/profits MAX & investing MIN
